OBJECTIVE

Detail-oriented Electronics and Communication Engineering student with strong communication skills and a customer-focused approach. Quick learner with the ability to work towards targets, handle pressure, and collaborate effectively in a team. Looking to start my career in a sales role where I can support channel partners and distributors, drive secondary sales, and contribute to business goals while growing within a dynamic organization.

EDUCATION

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology <i>Bachelor of Technology in Electronics and Communication Engineering</i> Percentage: 85%	2022 - 2026 Chennai
AP Model School and College <i>Intermediate (MPC)</i> Percentage: 59.5%	2020 - 2022 Guntur
Sri Chaitanya School <i>Secondary School Certificate, 10th Grade</i> Percentage: 98%	2019 - 2020 Guntur

PROJECTS

Academic Intelligence System (AIS) <i>HTML, CSS, JavaScript, MySQL, Data Visualization</i> - Built a full-stack web application to track student performance including attendance, test scores, and academic progress with a three-role login system (Parent, Teacher, Student). - Created interactive dashboards with real-time trends and added a live chat feature to improve communication between all user groups. - Gathered feedback from 3 user groups and improved the system based on their input, improving overall user satisfaction. - Onboarded and managed 10+ users across 3 segments, identifying their needs and ensuring high retention — mirroring dealer engagement and channel partner support in a sales territory.
Secure Access Control System <i>C, Arduino UNO, GSM, RFID</i> - Built a two-factor door security system using Arduino, an RFID card reader, and a GSM module that sends a one-time password to the registered phone on each scan. - Tested the full system across different scenarios, fixed bugs, and wrote clear documentation covering circuit design and setup steps. - Added an access log that records the time and identity of every entry attempt for easy security event review. - Delivered the project end-to-end on schedule, demonstrating a self-motivated, target-oriented work ethic suited for on-field sales execution.

SKILLS

Customer Support : Chat, Email and Video-based Client Communication, User Onboarding
Data & Reporting : Tableau, Excel, SQL, MySQL, Data Visualization
Technical : HTML5, CSS3, Java, Arduino IDE, AutoCAD (Basic)
Tools : PowerPoint, Google Workspace
Soft Skills : Active Listening, Empathy, Cross-cultural Communication, Teamwork, Problem Solving, Adaptability, Proactive Learning

CERTIFICATIONS

VLSI Chip Design, VAC <i>Circuit design and layout fundamentals with exposure to hardware data flow</i>	2023
Hands-on IoT and Embedded Systems, IPT <i>Sensor integration, real-time data acquisition and processing systems</i>	2024
Sensors and Actuators, NPTEL <i>Sensing principles, transducer characteristics, signal conditioning and data interpretation</i>	2025

ACHIEVEMENTS

- Presented the Academic Intelligence System to faculty and peers; received appreciation for clear communication and practical problem-solving approach.
- Consistently recognized for ability to explain complex technical concepts to non-technical audiences during project demonstrations.
- Built automation mini-projects using sensor-based systems, showcasing hands-on initiative and independent learning beyond curriculum.
